

**Brakes Plus Lincoln, NE**  
**2725 Crossbridge Place**  
**Lincoln, NE 68504**

**Bid Clarification:**

1. Floor slab to be supported by 36" of lean clay structural fill, this can be achieved through a combination of over-excavation and re-compaction of site soils or structural fill placed to raise site grades. Structural fill soils should extend 5 feet beyond the building perimeter and be moisture conditioned and recompacted in accordance with section 6.2 of the geotechnical engineering report.
2. Pavement areas to be supported by 24" of lean clay structural fill, this can be achieved through a combination of over-excavation and re-compaction of site soils or structural fill placed to raise site grades. Structural fill soils should extend 2 feet beyond the paving perimeter and be moisture conditioned and recompacted in accordance with section 6.2 of the geotechnical engineering report.
3. Provide unit costs for cut/haul and import fill.
